

Cottage Associations:

Manitoba Conservation and Water Stewardship as a free “Be Ember Aware” video available for mail out to your Cottage Association. This short and informative video will help your community members, home and cottage owners, understand the danger of embers during a wildfire and what you can do to reduce the risks embers and wildfires present. The “Be Ember Aware” program components were developed by the Great Lakes Forest Fire Compact, of which Conservation and Water Stewardship is a member. To receive this DVD please email your cottage association mailing address to firesmart@gov.mb.ca

Additional resources to help protect your community from wildfire can be found at www.FireSmartCanada.ca
