

Conservation and Water Stewardship

Box 4000, Lac Du Bonnet, Manitoba, Canada R0E 1A0
T 204-345-1455 F 204-345-1440

Conservation and Water Stewardship is undertaking a management planning process for Nopiming and Manigotagan River Provincial Parks. Management plans provide long term direction and address concerns associated with parks.

Please find enclosed a copy of *Nopiming and Manigotagan River Provincial Parks: Report on Public Comments - What We Heard*. You are receiving this update because you submitted a comment during the round one public engagement last fall, you have requested to be added to our notification list or you were identified as a stakeholder for either of these parks. A copy of this document has also been posted on the Manitoba Parks website public consultation webpage (www.manitobaparks.com).

Public engagement is an important part of the management planning process. Over the course of the summer, staff from Conservation and Water Stewardship will be developing draft plans using the public comments received, scientific data, academic resources and current park policies and principles. Once draft plans are completed, you will be notified of the second phase of public engagement including dates of open houses.

Communities or groups that are interested about the process or draft plans are encouraged to email or phone to request a presentation or to receive additional information.

Please feel free to forward this information to anyone that you feel may be interested in participating in the management plan process. If you do not wish to receive this information, please email Morgan.Hallett@gov.mb.ca or call 204-345-1455. You can also notify me of any changes of contact information.

If you wish to discuss the planning process or require any additional information, please contact me directly.

Yours truly,

Morgan Hallett
Parks Specialist - Eastern Region
