CSLW Update

The Coalition to Save Lake Winnipeg recently met in person for the first time since February 2020. Since that time our opportunities to connect have been limited to virtual meetings and email. As we all “regroup” and “readjust” safely to connecting in person again we look forward to continuing our advocacy for a healthy and sustainable Lake Winnipeg through information sharing.

Federal Election 2021

Over the next weeks candidates in Manitoba's 14 Federal Ridings may be contacting you to request your support. Lake Winnipeg's health and sustainability is dependent on all levels of government and all citizens working together to effect positive change. Engaging the candidates in a conversation about **WATER** and how they will support sustainable practices for the health of Manitoba's waterways will highlight the need for this to be a priority for government attention. You can ask your candidates to look beyond their party's plan to consider the needs of our province and the waterways they can protect.

WHAT CAN YOU DO?

Let your candidate know that you are concerned about Lake Winnipeg's health. Ask your candidate

What do they believe should be the primary focus for federal government to address the health of Lake Winnipeg?

What will they do to support the immediate reduction in phosphorus emissions into the waterways that are in the Lake Winnipeg water basin?

WHAT IS CSLW DOING?

The CSLW is sending each candidate in all of the Manitoba Federal ridings 4 questions. Individuals have up until August 31st, 2021 to declare their candidacy. We have asked for a response by September 10, 2021. We will provide these responses to the CSLW Concerned Citizens.
